Kathmandu City is one of the most popular sightseeing tours attraction hub in Nepal surrounded by seven world heritage sites of UNESCO. A valley so small surrounded by the rolling hills comprises so many attractions where you can even spend a month just by traveling. The three artistic cities Bhaktapur, Kathmandu and Patan are rich in culture. You can see many heritages, art and culture within these places built few centuries ago. Pashupatinath is one of the holiest temples for Hindus all around the world. Likewise Boudhanath and Swoyambhunath (Monkey Temple) are equally important to Buddhist shrines.

Nagarkot Hill carrying its own significance of bravery and other art mountain and cultural values are the places to visit during your stay in Nepal.

Beside these landmarks, you can also visit to other cultural sites like Budhanilkantha- known as sleeping Vishnu, Bhaktapur city and many more.
